In June 2002 the Landmarks Commission discussed and accepted a proposal to ensure timely Historic Landmarks Commission review of environmental documents, particularly Environmental Impact Reports (EIRs). Planning is offering a revision to that proposal. The Landmarks Commission and Planning Commission will now also receive all NOPs (Notice of Preparation) through regular mail.

Historic Landmarks Commission Review of environmental documents:

- Historic Landmark Commission members shall be placed on a mailing list for all NOPs.
- Historic Landmark Commission members shall be notified by email or by facsimile of Negative Declarations where historic archeology or historic resources are present.
- Historic Landmark Commission members shall be placed on the distribution list for EIRs where historic archeology or historic resources are present.
- Historic preservation staff shall notify the Historic Landmarks Commission at the next scheduled HLC meeting when reviewing an Administrative Draft of an EIR.
- The Department of Planning, Building and Code Enforcement is currently working to provide technical appendices on the environmental site of the department's web page.
- When technical appendices are available on the web site Planning staff and the HLC will revisit the distribution policy. Once all documents are available on line Planning staff and the HLC will discuss a notification system for Commission members so that they can access the full document on line.
